

# APRIL

## To Do This Month

- It's Tax Time**  
Whether you're expecting a bill or a refund, the process of submitting your taxes isn't very fun. Make it easier with paper management, receipt tracking, and bookkeeping systems that can serve you both this year and for tax years to come.
- Give Service**  
Everyone needs help every now and again. This spring, plan a service project with your friends and family, and give of yourself to those who need it.
- Tackle The Mail Pile**  
Take out current bills and personal mail. Thumb through back issues of magazines you loved and tear out the images or articles you enjoyed. Then, recycle the rest, including any expired coupons.
- Get The Garden Ready**  
Now that the ground has warmed, it's the perfect time to plant bulbs and seeds. It may be cold, but the flowers will grow as soon as warmer weather arrives. If some bulbs don't bloom this spring, don't worry—sometimes they need extra time. Now is also a good time to grow cold weather vegetables like peas and lettuce.
- Refresh A Room**  
A can of paint with a refreshing color can go a long way to make a space feel new. Go to your local home improvement store to look through paint samples. And after you paint, it's a great time to reorganize the room while putting everything back.
