

THE FRANKLIN FIVE

PRACTICE HABIT ONE

Be proactive. If life comes charging at you as soon as you wake up, you have little choice but to react. Instead, establish a morning routine that focuses your mind so you can choose to act, rather than react. By focusing on the things that matter most first, you'll be better able to manage the chaos of the day.

SAVE THE DATE

Start your Valentine's Day plans now by ordering your gift or booking your reservations. You don't want to be scrambling on the afternoon of the 14th.

COMPLETE A SMALL INDOOR PROJECT

Before warmer weather pulls you outside, get moving on that little project that you've been putting off. Rearrange your family room, paint a room, or some other DIY project.

PLAN YOUR FLOWER OR VEGETABLE GARDEN

If the weather isn't good enough for you to dig in the dirt, draw your garden in your planner. Decide which plants you're growing this year and determine where and when you'll plant them. If any plants are slower growing, buy seeds now and start them indoors.

CLEAN AND CONDITION YOUR LEATHER

Extend the life of your leather tote and binder. Clean out any accumulated clutter, then condition the leather with Apple Leather Care Conditioner. Proper leather care will add years to your binder or bag.
