

THE FRANKLIN FIVE

FERTILIZE FOR FALL

It might seem counterintuitive to fertilize your lawn with winter just around the corner, but experts suggest that the September feed is the most important of the year. Fall fertilizing provides a crucial (albeit short) growth boost that will nourish and preserve a healthy lawn throughout its winter hibernation.

ORGANIZE THE MEDICINE CABINET/VANITY

As is often the case with any organizing project, the first step to an organized bathroom vanity is to clear it out. Get rid of old makeup, lotions, and hair accessories you don't use anymore. Wipe off the shelves and replace what belongs there, starting with the items you use most frequently.

GO ON A PICNIC

Most people don't think about picnics in September. That's why they're so great! Grab someone special and head for the park or the canyon. You'll enjoy a beautiful afternoon with far fewer distractions.

REORGANIZE THE GARAGE

How you use your garage changes with each season. As fall deepens, it's time to put away the yard tools and make sure you can get to your snow shovel. Consider what you'll be using the garage for in the near future, and reorganize accordingly. While you're at it, make sure your ice scraper and gloves are in the car and ready to go.
