MAY

Practice Law 5: Daily Planning Leverages Time Through Increased Focus

Make a greater effort this month to spend a full ten to fifteen minutes each morning planning your day. If you leverage this small amount of your time, you will reap the rewards the rest of the day. Make sure this is time that's uninterrupted so you can fully focus on optimizing.

Remember Mom

You can never repay your mom for all she's done for you over the years, but you can at least tell her that. This year, make sure she knows you appreciate her and notice her efforts. One gift mom would really love is time with you.

Take More Pictures

May is National Photo Month. Now that every smartphone comes equipped with a digital camera, there really isn't an excuse for missing a photo opportunity. Pictures spark memories and create a wonderful record of events.

Update Your Bucket List

Our dreams change over the course of our lives. Something you put on your bucket list five years ago might have been completed already, or might not excite you like it used to. Take those things off and replace them with new dreams you've discovered. Then, start planning your next bucket list adventure!

Plan a Vacation

Summer is right around the corner, which makes this the perfect time to plan a getaway. Determine your itinerary now so you can save on reservation fees and get the dates, times, and locations you truly desire.

MY FOCUS FOR THIS MONTH
